To Check the Status of your Library Catalog Account

Please follow the following steps from the library online catalog.
Once you have logged into your library catalog account, you may check the status of requests made and renew most items up to three times.

Click on your name on the right side under “My Account”
Items requested will be listed under “Requests.” The status will be listed to the right.
Pending = item request is being considered.
Shipped = item is en route to Danforth Library.
Arrived = item is at Danforth and available for pick up.
Under “My Record” you may check on items out (if you have any) by clicking on the “items out” link. This is where you have the option to renew your items.

“Requests” will show the list of requests made and the status of those requests.
If you need additional help, please contact the library at libraryhelp@nec.edu or (603) 428-2344.
